

Michel Doucette

He graduated as a Radiation Therapist in 1990. He occupied different position at the Provincial Association since 1995. He was also involved at the National level as Director representing NB on the CAMRT Board of Directors. During that mandate, he was Vice-President of CAMRT for a term. Now that he's a non-practicing member, He still love to be able to give to our professional Association.

Sue Ness

Sue Ness is a strategic well-respected health care leader and professional consultant with a proven track record for building consensus, developing strong teams, mentoring leaders and working with strategic partners. She offers expertise in many health care sectors such as acute care, community/home care and long-term care, and as well as offers experience in leadership development, strategic planning and governance.

Jennifer Carey

Jen graduated as an MRT in 2009 and has been working at the Moncton Hospital ever since. During her seven year career, she has worked in general radiography or in CT. She loves them both. She loves being an MRT because she gets to interact with patients every day and aid their healthcare journey with the images she creates. "I love how our profession is constantly changing and enjoy staying up to date in those technological advances".

Jen's involvement with the NBAMRT began in the fall of 2010. She was Vice President and then became President in 2013. As her term has ended she looks forward to a continued involvement with the association in the role of Director. She is grateful for the opportunity to serve the membership in this way. "I love interacting with fellow MRT used both provincially and nationally"

Lisa Betts

I'm transplanted "Bluenoser", and I'm pleased to have called Saint John home for over 30 years. I attended the Institute of Technology in Halifax, Nova Scotia, and I graduated from the Nuclear Medicine Technology Program at the "old" Halifax Infirmary. After graduation, I worked as a general duty nuclear medicine technologist for ten years before moving into the role of Clinical Coordinator for the Nuclear Medicine Training Program. Over the years, I have had various roles in the both the classroom and clinical setting. In 2010, I became a full-time didactic instructor with the Nuclear Medicine Technology program. I have actively volunteered with the NBAMRT and CAMRT over the past 15 years, seating on numerous committees.

Cathy Moran-Robinson

Cathy is a lay member on the NBAMRT and is a Medical Laboratory Science educator employed by New Brunswick Community College in Saint John New Brunswick. Cathy accepted the position on this committee because of her interest in the Allied Health Professions. In her personal life Cathy is a mother to a 21 year old daughter who is currently in her 4th year of university at St Thomas University, and also “mother” to a few furry cat children.

Melanie Roy

Mélanie is a Nuclear Medicine Technologist who has worked in various New Brunswick hospitals. She has been an MRT since 2006 and has volunteered with the NBAMRT as Registrar since 2013. Melanie is motivated by the changes in our profession and dedicated to its advancement.

In addition to her full-time job, Melanie continues to work as an usher at Harbour Station, which she has done since 1999. She is also getting an early jump on her “grandma interests” including knitting, rocking chairs, cats and tea.

Joshua Blair

My name is Joshua Blair. I have been a Medical Radiation Technologist for 16 years. I graduated from the Saint John School of Radiological Technology in 2001. Soon thereafter, I started working toward completing my Bachelor of Health Science Degree, while at the same time working in X-ray. I completed my BHS degree in 2003. In my career, I have had the privilege of working in different specialty areas such as Interventional Radiology and CatScan. One of the great things about this profession is the ability to be able to cross train into different specialty areas. I have had the opportunity to be Super User for different pieces of equipment and rooms. I am a long time member of the Joint Occupational Health and Safety Committee in Fredericton and now in Saint John. I am a member of the NBAMRT Bylaw Committee. I have been involved in the NBAMRT Executive since September 2016. First as the Acting Vice President/ Member at large. Then in May 2017, I was voted in as Vice President of NBAMRT. I am finding it very rewarding. I am a member of the CAMRT Foundation. I am also a member of the CAMRT National Network Council Committee. I most recently accepted a position as the Quality Assurance Technologist for Horizon Health zone 2, Saint John zone. I am excited to see what challenges and opportunities lay ahead with this new position. In my free time I am involved in fitness/ active living and spending time with my two children.
